## PROJECTS

---

**SaaS Website Builder** | *Next.js14, TypeScript, Prisma, PostgreSQL, Stripe Connect*

[GitHub](#) | [Live Demo](#)

- Engineered a multi-tenant SaaS application, Plura, using Next.js 14, Tailwind CSS, ShadCN UI, and Prisma.
- Integrated Stripe Connect to enable agency owners to manage subscriptions, process transactions, and collect platform fees from sub-accounts.
- Built a custom drag-and-drop website and funnel builder with real-time editing, undo/redo functionality, and Stripe-powered checkout.
- Implemented dynamic role-based access control (RBAC), allowing agency owners to manage staff permissions and sub-user access.

**Skate Board** | *GSAP, Three.js, Prismic, Tailwind CSS*

[GitHub](#) | [Live Demo](#)

- Developed an interactive 3D skateboard customization app using Next.js 15, React Three Fiber, and GSAP.
- Designed a skateboard customization tool with real-time deck, wheel, and truck swaps.
- Optimized performance and responsiveness using Next.js 15 and Tailwind CSS, while streamlining content updates with Prismic CMS and automating deployment via Vercel.

**AI Content Generator** | *React, TypeScript, Drizzle ORM, Gemini API*

[GitHub](#) | [Live Demo](#)

- Built a full-stack AI content generator using Next.js, React, and Tailwind CSS, enabling users to generate high-quality content with 20+ customizable templates.
- Integrated Clerk for seamless social login and secure user management, improving accessibility.
- Implemented real-time credit tracking with PostgreSQL and Drizzle ORM for accurate usage monitoring and seamless subscription management, while leveraging Google's Gemini API to generate AI-driven content for coding, blogging, and business needs.

**Think Grid** | *Next.js14, ShadCN UI, Liveblocks, Convex, Clerk*

[GitHub](#) | [Live Demo](#)

- Developed a real-time collaborative whiteboard using Next.js 14, React, and Tailwind CSS.
- Integrated Liveblocks and Convex for instant multi-user synchronization and real-time updates.
- Enhanced UI/UX with ShadCN UI, custom themes, and an intuitive drag-and-drop interface.
- Implemented interactive features like sticky notes, drawing tools, layering controls, and team collaboration.
- Designed a seamless user experience with Clerk authentication, role-based access, and organization management.
